Sue:

Attached is the revised draft of the Requirements. As I mentioned this morning, Mr. Saunders has made his concurrence on the requirements conditional on the incorporation of several changes made to the final draft. I've indicated the changed or added language by underscoring. I don't know where we go on this project now. If you circulate this draft to other NFIB agencies you may indicate the changes were proposed by the Director of INR. I do hope we can still accomplish ~~XXXXXXXX~~ coordination on the phone. Sorry about the glitch.
